RoHS Compliance Letter - Extruded Tubing

To Whom it May Concern:

In response to the EU directives 2002/95/EC, on the Restirictions of certain Hazardous Substances, (RoHS) which addresses the presence of the following substances; lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyls, polybrominated diphenyl esters, CFSs, PCBs, and PCTs, in our extruded tubing, Randolph Austin submitted samples of Prothane II™, Ed-Plex™, Cilran™, Vytex™, and Povinal™ to be tested by an independent laboratory. As a result of that testing, Randolph Austin Company can certify that *Prothane II™, Ed-Plex™, Cilran™, Vytex™, and Povinal™ all meet the specifications for hazardous mateirals as outlined by EU directives 2002/95/EC, on the Restirictions of certain Hazardous Substances, (RoHS).

Copies of original test data can be made available upon request.

Any additional questions and concerns may be addressed to our extrusion department.

Sincerely,

A handwritten signature in black ink, appearing to read 'Robert Finger', written in a cursive style.
